# Keeping Your Laptop Safe

PARTNERSHIPS FOR A SAFER CAMPUS

## **LAPTOP COMPUTER INFORMATION**

Laptop Computers have become one of the most popular targets for both the casual and experienced thief. The theft has occurred in areas that you would think it couldn't happen. Even though there is a drop in other crimes, there is an increase in thefts of laptop computers. As laptop computers become more and more popular, the greater chance for the theft's to increase. Most of the time it only takes a few seconds for a laptop computer to be stolen. Just leaving it laying around and walking away for just a minute, it can disappear.

## **TIPS ON KEEPING YOUR LAPTOP SECURE**

- Record and keep in a safe location the make, model number, serial number and cost of your computer.
- Always keep your laptop in sight and avoid leaving it unattended in any public place.
- In your residence hall, lock your laptop in a drawer when not in use or secure it to the desk with a cable lock.
- Keep your residence room door locked when you are gone even if its just a minute or two.
- Have the University Police engrave your laptop. It only takes a couple of minutes and **free**.
- Do not leave your laptop in your car on the seat where it can be seen. Either take it with you or lock it out of sight.
- Report all suspicious activity to the University Police at 334-5963 or 334-4444.

## **TWO TYPES OF LAPTOP COMPUTER LOCKS**

### **Laptop Lock - MAXX**

The Tryten Laptop Lock MAXX is our thickest and most rugged security cable that protects your Laptop computer from theft. This single-piece lock is easy to use, practical and still compact enough to fit in your carrying case.

### **Laptop Locks - PRO**

The Tryten Laptop Locks are an easy to use cable system that protect against the theft of Laptop computers. This affordable single-piece lock is practical and compact enough to easily fit into your carrying case.
